- Restoring the Past to Build the Future -

Carbon Building - Critical Deficiencies

- **ADA Issues**
- **Building Maintenance**
- **Generator**
- **Life Safety**
- **Parking/Alley**
- **Records Management**
- **Space Allocations**

- Restoring the Past to Build the Future -

Option Selected

- ~~Option 1. Do nothing.~~
- ~~Option 2. Courthouse reallocation of space.~~
- ~~Option 3. Consolidate criminal justice functions in the Courthouse and administrative functions at the Carbon Building.~~
 - ◆ ~~#3A. Utilize the Carbon Building Lower Level for Administrative Functions~~
 - ◆ #3B. Utilize the Carbon Building Lower Level for Public Health/Best Beginnings and the Library. Utilize the Main Floor or Administrative Functions
- ~~Option 4. Build a Criminal Justice Center.~~

Project Goals

- To provide a building that is **user-friendly**.
- To provide **handicap accessible** facilities and areas.
- To provide **improved parking** and **internal movement**.
- To provide facilities that are **flexible** and able to expand as needs change.
- To **maximize use** of the Courthouse and Carbon Building.
- To cluster like functions to foster operating and **staff efficiencies** and **customer service**.
- To maximize the use of **shared meeting** and **staff spaces**.
- To provide a **cost effective, energy efficient** facility.

Project Goals

- To use **low maintenance** materials where appropriate and consistent with the desired image.
- To provide **signage** that are welcoming and informative
- To provide spaces that meets all relevant **life-safety** and **fire codes**.
- To maximize the amount of **natural light** in staff areas.
- To provide **high-density storage** in order to promote space efficiency.
- To provide a **professional** staff work environment.
- To create an environment which **enhances staff** and **public safety**.
